

Environmental Policy

Environmental Management

Anglia Print aims to fully understand, manage and reduce the environmental impact of its operations.

Anglia Print is committed to continually improving its performance, ensuring compliance with all legislation, preventing pollution and reducing the environmental impact of its operations.

We now have in place systems for managing the environmental impact of our operations and ensuring we comply with all legislation. Our Environmental Aspects Register will be our framework for setting targets and objectives for improvement.

Our Environmental Policy is displayed internally and will be publicly available via our new website due to be launched in 2016.

Organisation and Responsibilities

All staff are aware of our aims and actions via employee communications.

Actions and communications are led by John Popely (Director) with external input from a specialist environmental consultant.

Signed

A handwritten signature in black ink, appearing to be "JP", with a large, sweeping underline that extends to the left and then curves back under the signature.
